

Benefits of digitising your business

Embrace digital

Digitisation is the foundation for a resilient and thriving business.

Up to 92 % of weekly and monthly tasks can be digitised for small to large businesses. Freeing up time to examine the data, gain credible knowledge, and identify opportunities.

Ammu's digital team takes care of the whole process for you.

Cost saving

Financial records stored securely in one place on the cloud saves money:

- an accountant can access relevant data immediately
- digital storage reduces printing & stationery costs
- costly IT upgrades, maintenance and system administration no longer your problem
- outdated systems and server failures are no longer an issue

Real-time Information (RTI)

Using software provided by a digital accountancy practice allows:

- financial information regularly updated
- accessed anytime, anywhere,
- up to date view of current financial position
- manual errors reduced
- audit trail tracks every change

Boost productivity

Financial records stored securely in one place on the cloud saves time:

- sifting through invoices
- inputting data
- completing bank reconciliations
- compiling paperwork for tax return

So more time focused on business growth or succession planning.
