good financial management is the cornerstone of a successful business

Accounting and calculating taxes provide a solid foundation for your business. Many businesses see time taken on accounts and tax compliance as a necessary overhead. At ammu we think of it as the outcome of an exciting investment of time working towards commercial and financial targets and it generates focus. We help you to discover what's going on in your business finances and we will help you to understand and use this information to make better and more informed decisions. This will lead to improved profitability, greater returns and your people feel rewarded and more motivated.

on your behalf.

requirements

Bank reconciliation and

and managing debtors.

Preparation of monthly or

monitoring customer payments

quarterly MI pack tailored to your

Payroll services, RTI filings and

auto-enrolment - weekly,

fortnightly, or monthly.

Make payments and raise invoices

how we will support you and keep you on the right track

Advise you on the best MTD compliant cloud accounting software and application package that will suit your current and immediate future requirements.

Prepare your bookkeeping as required and provide you with regular updates on the business finances (daily/weekly/monthly cash position as appropriate).

_	L

Calculation, completion and filing of your quarterly VAT returns – we also assist with VAT registration and advise on the most appropriate scheme for your business

what we do

We work with limited companies, partnerships, sole traders, and entrepreneurial companies to help them to:

Improve the quality of the financial reporting and management information available in the business.

Improve daily financial management system, procedures, and practices to pull year end accounting and tax information quickly, accurately and on time – minimising time spent on year-end admin.

Regularly discuss the business' financial performance throughout the year – not just at year-end. At the start of each year we will meet with you to discuss your objectives and priorities for the year ahead. Find out more about how we will work with you throughout the year in the

diagram opposite.

Annual performance review Finance strategy and planning -

setting the bar and the targets for the next financial year.

Year-end review meeting

Annual accounts preparation, corporation tax computation and submission of accounts and returns to Companies House and HMRC. Directors' self-assessment tax returns and planning meetings e.g. IHT, CGT.

Ongoing financial management and reporting:

If you have chosen our bookkeeping and VAT returns service, we will undertake your financial record keeping, compute and submit your quarterly VAT returns to HMRC, perform regular bank reconciliations

٠

New client

Set up and configure your chosen cloud accounting software and business applications to your specific requirements.

Year-start planning meeting

Financial and business outlook for year ahead, annual budget and financial forecast, business investments planned and tax implications.

Quarterly or half-year review meetings

Financial performance review: actuals vs budget and targets set, prior year and prior period review. FD scrutiny and forward action planning. This is where we will add most value to your business as we work with you to improve your profit margins and performance.

and provide you with regular reports on the business' current financial status and any points for action. We provide a fully, or a partially, outsourced bookkeeping service.

At ammu clarity matters. We guarantee you will clearly understand the numbers behind your business to gain the insights you need to manage your business effectively, efficiently and profitably.

Ammu is a trading name of Amas Murrison Limited. A distinctive blend of Chartered Accountants and Chartered Management Accountants providing accounting, finance, tax and digitisation advice and services to businesses, professionals, private individuals and families.
